

# **Katyazo School Project Descriptions**

Katyazo is our new secondary school that is being built on 68 acres which were donated for the purpose of building new secondary and primary schools, and growing food for students at each of our schools.

## **\*Bunk Beds \$2,600**

Bunk beds have generously been provided for most of our students, but our enrollment is higher than we first expected.

## **\*Food storage/ cook housing \$4,900**

## **\*Temporary kitchen \$1,900**

Much is needed to provide not only for our students at Katyazo but the food that will go to the other schools as well.

## **Student Essentials \$1,500**

Our students need basic essentials like trunks to keep their clothes in, towels, and hygiene supplies.

## **School Supplies \$2,000**

Because this is a brand new school there are many supplies needed for teachers and students.

## **\*Fence \$6,400**

Protection is needed for our students, buildings, and farm.

## **Science Center \$40,000**

## **Lab equipment \$4,000**

To meet government regulations, this secondary school must have a library and laboratory available to the students.

## **Ceilings in finished buildings \$8,000**

To help with insulation and noise reduction, ceilings are needed in the buildings that are being built.

## **Water Tank \$1,500**

A 10,000 liter water tank is needed to store the water needed for our children and animals.
