

# Kyasenya School Projects

Kyasenya is one of our newest schools, but because of the structure that is already in place we have the potential for it to be the first school recognized by the Ugandan Education Department. Meeting these needs will help greatly.

## **Government registration fee \$500**

To begin the process of registering with the Education Department we must pay a registration fee.

## **\*P3 Text Books \$300**

## **\*Desks \$700**

Most of our Kyasenya students are young, but as they promote we must expand our resources and class space.

## **Shoes \$2,000 **Funded****

The dirty uneven ground and continual growth of our kids makes it difficult to keep a good pair of shoes on their feet.

## **\*Fence \$2,700**

As we improve the facilities, we must insure that the children attending are safe and our facilities are protected.

## **Bathrooms, 1 left \$1500**

Because of some generous donations, we only need to build one more bathroom for these 150 children.

## **Plastering Classrooms \$2,000**

## **Concrete classroom floors \$4,250**

Our Kyasenya school is a brick building, but at this point it is just a shell. Dirt floors and bare walls make it difficult to keep the buildings clean and well maintained.

## **Medical clinic \$5,000 **PLEDGED****

As we begin to meet the most urgent needs at each of our schools, our next phase of care will include a medical clinic for the community. Students can be treated for free and local villagers can be treated for a small fee that goes back into the ministry.
